Level II Flexo Prepress is a 2.5 day training program focused towards designers, production artists, and graphics managers at all skill or experience levels who need a better understanding of the fundamentals of the flexographic printing process. Participants will be using Adobe Illustrator to design a simple 4-color job, which will then be separated and printed on press. We will be printing and evaluating tonal scales and using profiles throughout the process. We will also touch on the topic of near neutral calibration as it applies to both the Flexo press and proofing. Designers and production artists who are new to flexo or to 4-color process printing and color management will find this program especially valuable.

Topics Covered

- Flexo printing process
- Fundamental flexo terminology
- Flexographic printing workflow
- Inks and color theory
- Process color printing
- Flexographic design process
- Design considerations, components, construction
- Characterizations and profiling
- G7 / Near Neutral Calibration
- Evaluating and applying profiles for displays, proofs and presses
- Making a design print ready

July 22: 12 - 4:30 pm

July 23: 8 - 4:30 pm

July 24: 8 - 4:30 pm

Seminar Cost: \$895.00 per person,
Limited to 12 people.
Group discounts available.

Held at DiTrollo Flexographic Institute
Snack & Lunch Included
